连缝千米不跳针

Continuous sewing over kilometers with 0 stitch skips

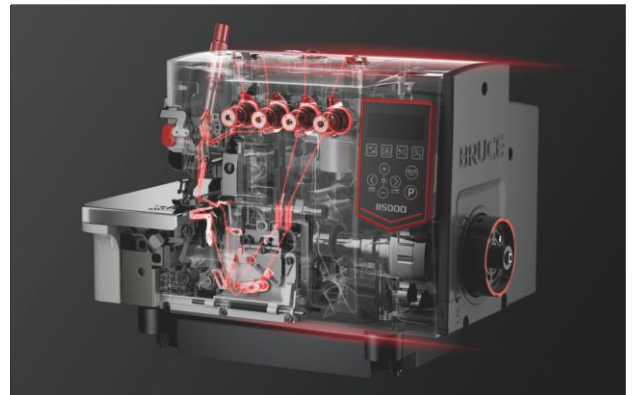

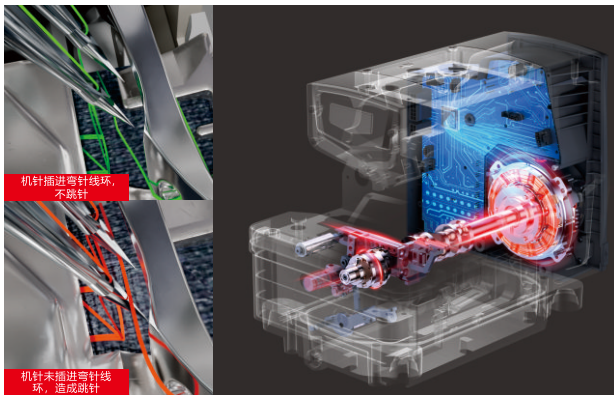

www.chinabruce.cn

缝厚不跳针、不断线

Sewing thick fabric without skipping stitches or breaking threads

搭载全新**坦克稳定系统**，应用履带送料技术和陀螺稳线技术，**实现过骨过厚不跳针、不断线**

Equipped with a new **TANK Stabilization System**, applying Track Feeding Technology and Gyroscopic Thread Guidance System to achieve **no skipped stitches and no thread breakage over stem and thick fabric.**

履带送料技术 Track Feeding System

0.00006S智能感知面料阻力，**9.2Nm**强大送布力；过骨过厚上弯针线环增大**50%**，机针不跳针，线迹不变密，**提效10%**以上。

0.00006S Intelligent Sensing Fabric Resistance, **9.2Nm** Strong Feeding Force.

Over the bone-cross and thick, the upper looper thread ring increased by **50%**. The machine needle does not skip stitches. The stitches don't become dense, **an efficiency improvement of more than 10%.**

陀螺稳线技术

陀螺防抖，高速机针抖动**下降70%**，陀螺稳线，厚料线张力**降低25%**；弯针跳针断线率**降低30%**。

Gyroscopic anti-shaking, high-speed machine needle jitter **reduced by 70%.**

Gyroscopic stabilize thread, thick material thread tension is **reduced by 25%.**

Looper skipping stitch and thread breakage rate is **reduced by 30%.**
